ONE HUNDRED ACRES
IN CULTIVATION
WHILE I exercise the greatest care to have all trees, shrubs and plants sent by me
free from disease and injury and prepared to thrive, on proper
receipt of all, that may be proved otherwise, I do
not give any warranty express or implied with
respect to them. Any and all such goods are
sold upon the express condition and under the
implied in that any of them proves to be injurious to
nature, unhealthy or otherwise unsatisfactory, I
shall not be held responsible for any amount
more than the original price of the same.

All claims for errors, deductions, etc., must
be made immediately upon receipt of goods.

Terms: Cash, except by special arrangement.
Transportation at purchaser's risk and expense.

Packing done in best manner at moderate cost. Grades carefully made at a uniform standard of excellence.

My stock has been examined by our State Entomologist and found to be entirely free from San Jose Scale and other dangerous insects or plant diseases. A copy of the official certificate will be sent to each purchaser.

OFFICE—43 North Avenue. Main line trolley
passenger service within one block.

PACKING—GALLOWAY—Winder Street, near
Side, one block north of office.

Rosa—
Spinossissima (Scotch or Burnet Rose). A low shrub with small leaves and single white or pink flowers. The branches are usually densely beset with slender prickles. The foliage withstands our suns, and is persistent during the entire season. It is one of the very best of the rose species.

EVERGREEN TREES AND SHRUBS

I invite particular attention to my large blocks of Arbor Vitae, White Pine, Retinospora, and to my collection of Thujas.

In addition to our plan of root pruning and transplanting, most of our evergreens are sheared yearly with the effect of producing dense, perfect specimens.

All evergreens sold at 50c. or more will be dug with ball of earth and the roots of each burlAPPED separately.

HARDY HERBACEOUS PERENNIALS

I have a special contract with one of the most careful growers in the country, permitting me to make very favorable prices upon a large assortment. Quotations cheerfully furnished. Send a list of wants for estimates.
All of my experiments are transplanted at frequent intervals, and in addition are confested yearly in August.

It is our custom to give ample space in the Nursery room to allow for the development of each individual seed, so that nearly all of the seed, can be best described as "conclusions."

An increasing made it forms as appreciation of immense service, courteous treatment and care, most carefully handled.
